Summary

Front End Developer

Front End Developer with **5+ years of contractual experience** specializing in **React.js, Next.js, JavaScript, and modern UI development**. Skilled in building scalable, responsive, and high-performance web applications. Strong expertise in **component-based architecture, state management, API integration, performance optimization, and cross-functional collaboration**. Delivered **100+ frontend projects** across long-term contract roles for global clients. Experienced with **Tailwind CSS, HTML5, CSS3**, and integrating React-based frontends with REST APIs and headless CMS setups. Seeking a React.js or Next.js Developer role where I can contribute clean code, strong problem-solving, and modern frontend engineering practices.

Experience

RedConic

Contractual Role | Remote / India

Front-End Developer

2022 - Present

Front End Developer (Contract) – RedConic

RedConic is a fast-growing digital agency where I worked on a contractual basis, collaborating with cross-functional teams to deliver modern, high-performance websites and scalable web applications aligned with business and UX goals.

Key Responsibilities & Achievements:

- Developed **responsive, high-performance frontends** using **React.js, Next.js, JavaScript, Tailwind CSS, HTML5, and CSS3**.
- Collaborated with UI/UX designers, backend developers, and project managers to deliver **pixel-perfect, user-centric interfaces**.
- Customized, optimized, and maintained **WordPress websites** with a strong focus on **UX, SEO, Core Web Vitals, and mobile responsiveness**.
- Improved website **speed, accessibility, performance scores, and maintainability** using best practices and modern tooling.
- Participated in **feature development, sprint planning, debugging, testing, and code reviews** to ensure clean, scalable code.
- Implemented reusable components and followed **component-driven development**, improving consistency and development speed.
- Ensured cross-browser compatibility, responsive layouts, and adherence to **WCAG accessibility standards**.

Education

Sam Higginbottom University of Agriculture, Technology And Sciences (SHUATS)

2016 - 2019

Bachelor of Computer Applications

Skills

Web Technologies

HTML5, CSS, Bootstrap, Tailwind CSS, Javascript, Jquery, React.js, Next.js, Wordpress, Shopify, Redux, Redux Toolkit, TypeScript

Tools

Webpack, Git, Github, Figma, Adobe XD, Photoshop, Illustrator, Google Analytics, Canva, Vercel

Projects

Interactive Developer Portfolio

- **Tech Stack:** Next.js, TypeScript, Tailwind CSS, Redux Toolkit, GSAP, WPGraphQL.
- Built a highly interactive frontend featuring complex, timeline-based animations using **GSAP** and optimized smooth scrolling with **Lenis**.
- Utilized **WordPress as a Headless CMS**, fetching dynamic project data via **GraphQL** to allow for easy content updates without code redeployment.
- Maintained a public, open-source codebase on **GitHub** adhering to clean code principles, enabling community learning and code review.
